

# KEGG waveform enrichment — male aligned bmal1-control

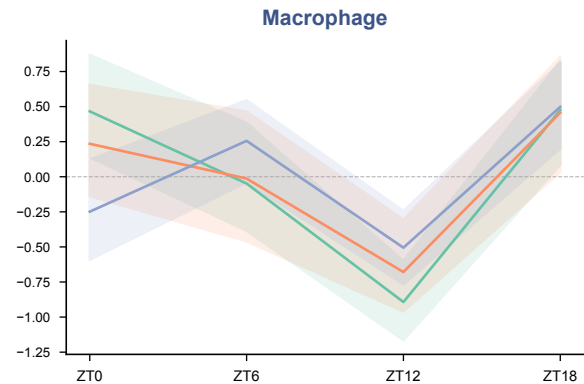

African trypanosomiasis  
 Glutathione metabolism  
 Chemical carcinogenesis  
 ErbB signaling pathway  
 Glutamatergic synapse  
 Terpenoid backbone biosynthesis  
 Circadian entrainment  
 Mineral absorption  
 Drug metabolism  
 GABAergic synapse

Chemokine signaling pathway  
 Circadian entrainment  
 Cardiac muscle contraction  
 Protein processing in endoplasmic reticulum  
 IL-17 signaling pathway  
 Drug metabolism  
 Chemical carcinogenesis  
 PI3K-Akt signaling pathway  
 Metabolism of xenobiotics by cytochrome P450  
 MAPK signaling pathway

Complement and coagulation cascades  
 cGMP-PKG signaling pathway  
 Viral carcinogenesis  
 Parathyroid hormone synthesis  
 Protein digestion and absorption  
 Cholesterol metabolism  
 Adrenergic signaling in cardiac muscle  
 Wnt signaling pathway  
 Relaxin signaling pathway  
 MAPK signaling pathway

Cytokine-cytokine receptor interaction  
 TNF signaling pathway  
 C-type lectin receptor signaling pathway
